To Whom It May Concern,

I was born here in California, and as the years go by and I see more and more of our California taken away from us by special interest groups and people proclaiming to want to protect California. They do not seem to do much about the bigger picture of the commercial fishing fleets that are dragging our seas empty. Or the illegal fishing going on in this state. Instead we the people will soon have no public land to go and enjoy, we won't be able to fish at our shores for fun, or teach our grandchildren to fish, because we won't be allowed to go there. I don't want my tax dollars spent on any part of this project. There's more important issues out there.

Thank you,  
Reggie
